Chris,

Good morning. [] is still working on the 5/8, 1900 making adjustments, should get a draft today.

We are still waiting on CERCLA checks before we can award the drum and tote bid to ACV. We will start preparing the profiles for your review and signature as soon as the CERCLA checks are completed.

My thoughts on crew size to do this T&D would be RM, Operator and 2-techs. Outlined below is a plan/schedule for T&D site work. This all would need to be coordinated with ACV once we receive the waste approvals.

Monday-Mobe

Tuesday-Repackage (aerosols and LP material)

Wednesday- Ship waste

Thursday-Demobe

Estimated costs for 4 days travel & on site work is approximately \$10,700.00 This includes labor, equipment (3-pick ups & skid steer), lodging and per diem, & expenses for fuel, tolls etc., PPE is onsite. This estimate was for 8 hour days.

It may be best to wait until you remobe the site to plan this work and save some \$.

Whatever you would like to do is OK with ER.

Please let us know if you have any questions.

Thank you.
